Information Technology

CGPA: 8.40

PROJECTS

iNoteBook

- This Notes App is a straightforward project created with REACTJS, CSS, MATERIAL UI, and HTML
- The user can add a number of notes (to-do task information) here, and the details are saved in a list style, similar to sticky notes. If the user wishes, he or she can also delete the list of entries.

Netflix Clone

- As a developer working on a Netflix clone website, my main goal was to create a web application that closely mimics the user interface and functionality of the Netflix streaming service.

AuraBay Dashboard [🔗](#)

- The React Admin Dashboard project is a comprehensive web application that offers a range of powerful features for managing and visualizing data. The application features a responsive user interface that seamlessly adapts to different screen sizes, making it accessible on any device.

ShopCart - MERN Stack [🔗](#)

Shopcart is a dynamic and user-friendly e-commerce platform built on the powerful MERN stack, combining MongoDB, Express.js, React, and Node.js technologies. Connected together with the Aurabay Dashboard for Admin And ShopCart as client.
